

Noémi Balázs

Senior Android Developer

Profile

I'm a passionate, versatile, forward-thinking Android developer with a "get things done" attitude, with a keen focus on the user experience and with a client-centric mindset.

I have an extensive experience in working for startups from different industries, such as consultancy, development, aviation and home delivery services.

My knowledge includes followings:

- Great communication and collaboration skills, with the ability to work effectively with cross-functional teams, including product owners, designers, and QA engineers
- Experience in functional reactive programming using RxJava and Coroutines for handling asynchronous and event-driven data streams
- Experience in continuous integration and bug fixing
- Experience working with agile methodologies and software development good practices, such as Scrum and Kanban
- Experience working in fast-paced environment

Employment History

Senior Android Developer at Snappy Shopper, Dundee

August 2021 — March 2024

- Built the Foundation for the Company's Flagship App (V2) from the ground up
- Owned the development of core functionalities for the V2 app, streamlining the user experience.
- Implemented a user-friendly landing screen with location-based search and address lookup.
- Developed a robust user area and shopping cart with a smooth checkout flow.
- Utilized unit testing to ensure code quality and application stability.
- Proactively tackled feature enhancements and bug fixes across all four company apps, demonstrating versatility and a results-oriented mindset.
